An internationally sought-after speaker with over 70 publications, Dr. Marc J. Seifer is an expert on Nikola Tesla, Serbian-American inventor and engineer who discovered the rotating magnetic field, the basis of most alternating-current machinery. Tesla's inventions make him one of the foremost pioneers in the distribution of electric energy.

Dr. Seifer is the author of the acclaimed biography *Wizard: The Life & Times of Nikola Tesla* as well as *Nikola Tesla: The Man Who Harnessed Niagara Falls*. Dr. Seifer has lectured at the United Nations, King's College, Cambridge University, Oxford University, West Point Military Academy, and at conferences in Hawaii, Israel, Serbia and Croatia. He teaches psychology at Rogers Williams University.

Book sale and signing event will take place after the lecture.

*Entrance free of charge. Event sponsored by the Serbian Orthodox Church of Boston and the Serbian-American Alliance of New England.*
